01 — ABOUT ME

I'm Pham Quoc Cuong — a media leader & producer with nearly 10 years of experience in video production and brand storytelling. Over the course of my career, I have led diverse roles from Data Specialist, DOP Assistant, QTAKE & Stream Operator, to Post-Production Operation Manager and Indie Filmmaker.

I cover the full production lifecycle — from pre-production planning and on-set execution to post-production finishing, color grading and special effects. I have collaborated with filmmakers and clients across Singapore, Malaysia, Australia, and Morocco, and produced visual content for international brands including Google, Honda, Lazada, Shopee, PepsiCo and Unilever.
